

Publikationen der Ergebnisse (Stand Oktober 2004)

Originalarbeiten

Torky A.W., Stehfest E., Raemisch A., Viehweger K., Täge C. and Foth H. (2004). Immuno-histochemical detection of MRPs in human lung cells in culture. *Toxicology*, im Druck

Lehmann T., **Torky A.W.**, Stehfest E., Hofmann S. and Foth H. (2004). Expression of MRP1 and LRP in human lung cells in culture. *Toxicology Letters*, eingereicht.

Publizierte Abstracts zu Kongressbeiträgen

Torky A.W., Köhler C., Olausson B. and Foth H. (2002) A non-invasive Fluorescence assay for uptake and efflux of MDR and MRP substrates. *Naunyn-Schmiedeberg's Arch Pharmacol* 365. Suppl, 589 R151

Torky A.W., Stehfest E., Glahn F., Lehmann T., Foth H. (2003) Functional Activity of MDR1 und MRP1 in Human Lung Cells in Vitro. *Naunyn-Schmiedeberg's Arch Pharmacol* 367. Suppl, 608 R155

Torky A.W., Stehfest E., Foth H. (2003) Localization and function of MRP1-5 in human lung cell cultures in vitro. *Toxicology Letters Vol.* 144, Suppl. 1, 518.

Torky A.W., Stehfest E., and Foth H. (2004) Distribution of MRP1-5 in normal human bronchial cells and A540 tumor cells. *Naunyn-Schmiedeberg's Arch Pharmacol* 369, Suppl, R535.

Torky A.W., Stehfest E., Raemisch A., Hofmann S. and Foth H. (2004) Cyclooxygenase-Prostaglandin system is a modifying factor for MRP function. *Toxicology and Applied Pharmacology* 197, Suppl. 345, EUROTOX-Congress 2004 Tampere.

Stehfest E., **Torky A. W.**, Glahn F. and Foth H. (2002) MRP expression and modulation of/by Glutathione in human Lung cells. *Toxicology Letters Vol.* 135. Suppl. 1, 273 p. 141

Glahn F., **Torky A.W.**, Stehfest E., Foth H. (2003) Effect of Metals on Glutathione and Expression of MRP and UMAT in Human Lung Cells. *Naunyn-Schmiedeberg's Arch Pharmacol* 367. Suppl, 610 R156

Stehfest E., **Torky A.W.**, Foth H. (2003) Expression of MRP in Human Lung Cells and Functional Activity after amodulation of Glutathione. *Naunyn-Schmiedeberg's Arch Pharmacol* 367. Suppl, 609 R156

Glahn F., **Torky A.W.**, Foth H. (2003) The effect of heavy metal ions on the expression of MRPs and UMAT in relation to the intracellular glutathione level. *Toxicology Letters Vol.* 144, Suppl. 1, 516.

Stehfest E., **Torky A.W.**, Foth H. (2003) Expression of MRP1-5 in human lung cells culture with an apical air surface and its correlation to cadmium and zinc in respect to the glutathione pool. *Toxicology Letters Vol. 144, Suppl. 1*, 517.

Stehfest E., **Torky A.W.**, Täge C., Hofmann S. and Foth H. (2004) Localization and Expression of MRP1-5 in polarized human cells from peripheral lung. *Naunyn-Schmiedeberg's Arch Pharmacol* 369, Suppl, R536.

Glahn F., **Torky A.W.**, Simm C., Foth H. (2004). Localization of MRP-Transporters in human lung cells and A549 cells Transformation of S. Pombe with the human ABC-halftransporter UMAT. *Toxicology and Applied Pharmacology* 197, Suppl. 304.

Stehfest E., **Torky A.W.**, Täge C. and Foth H. (2004). Expression of MRP in peripheral human lung cells. *Toxicology and Applied Pharmacology* 197, Suppl. 307.

Raemisch A., **Torky A. W.**, Hofmann S. and Foth H. (2004). The influence of Prostaglandins F2 α and E2 on different MRP- transporters and Cadmium toxicity in normal human bronchial epithelial cells. *Toxicology and Applied Pharmacology* 197, Suppl. 344.
