

Publikationsliste:

ZBP1 regulates mRNA stability during cellular stress

**Nadine Stöhr,¹ Marcell Lederer,¹ Claudia Reinke,¹ Sylke Meyer,² Mechthild Hatzfeld,³
Robert H. Singer,⁴ and Stefan Hüttelmaier¹**

¹NBL3 Research Group, Zentrum für Angewandte Medizinische und Humanbiologische Forschung, Department of Medicine, and ²Department of Biochemistry, Martin-Luther-University, 06120 Halle, Germany

³Institute for Pathophysiology, Division of Pathobiochemistry, Martin-Luther-University Halle, 06114 Halle, Germany

⁴Department of Anatomy and Structural Biology, Albert Einstein College of Medicine, Bronx, NY 10461

ENDOCYTOTIC INTERNALIZATION AS A CRUCIAL FACTOR FOR THE CYTOTOXICITY OF RIBONUCLEASES*

Franziska Leich[‡], Nadine Stöhr[§], Anne Rietz[‡], Renate Ulbrich-Hofmann[‡], and Ulrich Arnold[‡]

From the [‡]Institute of Biochemistry and Biotechnology, and the [§]Interdisciplinary Center for Applied Medical and Human Biological Research, Martin-Luther University Halle-Wittenberg, D-06099 Halle, Germany

ZBP1 is a gatekeeper in stress granules

**Nadine Stöhr¹, Knut Krohn², Marcell Lederer¹, Sabine Buchmeier³, Robert H Singer⁴,
Stefan Hüttelmaier¹**

¹ NBL3-NWG6 of the Medical Faculty, Martin-Luther-University Halle-Wittenberg, 06120 Halle, Germany

² IZKF Leipzig, Core Unit DNA Technology, University of Leipzig, 04103 Leipzig, Germany

³ Department of Cell Biology, Technical University of Braunschweig, 38102 Braunschweig, Germany

⁴ Department of Anatomy and Structural Biology, Albert Einstein College of Medicine, Bronx, NY 10461, USA
